

PLACEMENTS : PG

PVG's College of Science has independent Placement Cell for PG students i.e. MCA and MSc students. The Placement Cell not only coordinates the Placement Activity in the campus for the students but also organizes guideline lectures / activities / workshops like Career Guidance, Resume Writing, Mock Interviews, Metamorphosis Personality Development Program. It also encourages the students and provides facilities to take up Industrial Assignments or Projects or Live Projects. We also invite Technical and HR professionals & industrialists to guide students regarding need of the industries. The Placement curve of our PG students shows exponential rise , in both the dimensions i.e. with respect to number of students placed as well as number of reputed companies.

Accenture	Aloha technologies	Atos	Amdocs
